BUCKEYE, ARIZONA

A POPULATION ON THE RISE.

Since 2000, Buckeye's population has grown from a mere 6,537 to the thriving community of 104,000 residents today. Buckeye continues to be the fastest growing city in the country and is only 5% built out today. At full buildout Buckeye will be more than 1.5 million in population.

20 YEARS OF FUTURE GROWTH

Growth within Buckeye is expected to increase in the coming years, as other areas within metro Phoenix are built out or are constrained by physical and geopolitical limitations (i.e. Indian communities, U.S. Forest Services lands, mountain ranges, etc.)

Buckeye's entitled land can support an ultimate build-out population of over 1.5 million, which would make it the second most populous city in Arizona, after the City of Phoenix.

ANNUAL GROWTH

Buckeye continues to see tremendous residential growth throughout the community. The city is projecting 2,500+ SFR permits in 2021, which equates to an additional 8,750+ residents added to the community this year.

COMMERCIAL ACTIVITY

Commercial activity in Buckeye is on the rise as the city sees investments across all industry sectors throughout the community. Meeting demand of the growing population, Buckeye proves to be a successful location for new development.

THE PIPELINE

Meeting the population growth, the community anticipates an additional 1.7 million square feet of development in the coming year. Activity will be across a variety of industry sectors.

- Speculative Industrial Buildings
- Healthcare Campus
- Retail and Services
- Downtown Redevelopment
- Multi-Family Development

REVERSE COMMUTE

Employees in Buckeye benefit from a reverse commute to work, meaning employees travel against the flow of traffic, whereas traditional commuters in Greater Phoenix will travel within it; this fact alone reduces the time employees spend commuting to work and is an asset that attracts a highly skilled permanent workforce to Buckeye.

1.45 MILLION LABOR FORCE

Businesses gain access to over 1.45 million people in the labor force within 45 minute commute of Buckeye. With access to a robust population, business will find a skilled and ready workforce for their Buckeye location.

EXPORTING WORKFORCE

92% of the current resident workforce in Buckeye have jobs outside the community, which means that there is a large pool of skilled workers in the area who have indicated that they would likely consider a job closer to their residence in order to cut down on their commute times, and improve their quality of life.
